# Fall 2020 Respondus Assessment Considerations

## Equity and Privacy

CSU's online degree programs have successfully

"If remote proctoring services [Respondus LockDown Browser and Monitor] are going to be used, strong efforts need to be made to ensure that

and not proof of cheating. Students may not be used to staring at a screen for more than an hour and eyes moving away from the screen is normal to relieve eye strain.

Respondus may also produce false positives. For example, if the student's environment lighting is too bright or too dark the system or if the student's full face is not in the camera may flag these instances.

### Privacy

Concerns from Students:

- Being recorded
  - Disability-related reasons
  - Religious reasons
  - Concern for other family members (in particular, children)

"Campuses should think carefully about how the privacy rights of students in their own homes can be respected, while still assessing student mastery of course material in a valid way."

For more information on Respondus LockDown Browser and Monitor visit our [Respondus Tools Support Page](#)

## Disability Accommodation

"In all courses, virtual or in-person, students with disabilities who have interacted with the Bob Murphy Access Center (BMAC) should be allowed a variety of assignment options

be disabled.

- See [Exams and Assessments and Important Updates – Fall 2020 on the BMAC site](#)
